Profile

I am an aspiring Jr. developer. I currently have worked with HTML, CSS, Javascript, Node.js, Jquery and bootstrap.

project 1 - https://atalien145.github.io/Advanced-CSS-Portfolio/

- This project was to build a portfolio landing page, HTML and CSS were used.

project 2 - https://atalien145.github.io/Work-Day-Scheduler/

- This project was a day scheduler using Javascript and CSS, HTML and JS.moment

Team Project 3 - https://kperkins97.github.io/Gymder/

- we created an app that called two API's, here we called the google maps API and the Openweathermap API.
